

## **Broad Band High-Power Air-Cooled Loads**

Model: CWL22200X

Cernexwave's Broad Band High-Power Air-Cooled Loads are made in waveguide sizes from WR-10 to WR-430 with power ratings anywhere from 1 Watt to 2500 Watts. They are designed so that virtually all of the applied power is absorbed assuring a low VSWR.

The full band WR-22 Model CWL22200X can absorb 200 Watts of power with a VSWR of just 1.15:1.
