

## **Mechanical Variable Attenuator Model CSA12609035-01**

Cernexwave's CSA Series variable level setting mechanical attenuators have an adjustable insertion loss from 0 to 35 dB in more than a 20 different waveguide bands from 5 to 500 GHz or coaxial versions from DC to 110 GHz in a variety of different bands.

Our WR-12 Model CSA12609035-01 has an attenuation range from 0 to 35 dB and a VSWR of 1.3:1 all the way from 60 to 90 GHz.
